

ZIDECO

The Cinelli logo features the brand name in a bold, black, sans-serif font. The letter 'C' is stylized with a red and yellow swoosh graphic extending from its top left.

La nuova Zydeco intercetta le ultime tendenze gravel e le fa sue per rappresentare il trait d'union tra il mondo corsa e quello travel. La geometria è rivisitata: la scatola del movimento centrale si abbassa e il carro posteriore si allunga in favore di una maggiore stabilità e guidabilità sulle strade sterrate, anche ad alte velocità. La forcella è in carbonio Columbus. Il passaggio ruote aumenta arrivando a ospitare coperture fino a 700 x 42.

The Zydeco is Cinelli's triple-butted Columbus aluminium gravel racer and adventure bike, with a maximum tyre clearance of 700 x 42.

In keeping with Cinelli's heritage, the Zydeco's handling and geometry feel decidedly more aggressive than a typical gravel bike, combining classic Italian road bike geometry with greater tyre clearance, lowered bottom bracket and a slightly slacker head angle to provide the necessary stability for technical off-road riding.

The Zydeco is able to transition smoothly from fast gravel bike into multi day adventure and light touring machine thanks to rear rack mounts and the semi-sloping main triangle which allows easy mounting of larger top-tube bags.
